

Total Recovery Solution® (TRS®) Member Report Descriptions

To increase accessibility in Total Recovery Solution® (TRS®) for Auto programs, we are launching an information icon in AF Analytics that provides the description for each of the member reports.

Select a report from the menu as shown below, select the icon, and the report description will be displayed in a pop-up box.

Report Search: Feature Detail

InfoWindow

Report Name
Feature Detail

Feature Detail (Recovering and Responding) Provides details for features filed by or against the company during a given timeframe, including damages sought, feature status, and claim rep. information.

Use the (X) to close the report description window.

Report Search: Features Published Detail

InfoWindow

Report Name
Features Published Detail

Features Published Detail (Recovering and Responding) Provides details for features filed by or against the company and heard during a given timeframe, including damages sought, award amount, and claim rep. information.

A user can leave the report description window open and select other reports from the menu. When the information icon is selected, the report description in the window will refresh.
